Filter Cartridge Change Instruction:

1. Remove all packaging from the new cartridge, including any wraps or caps (if applicable).
2. Rotate the old cartridge counterclockwise 1/4 turn, pull it out and dispose of it.
3. Insert the new cartridge into the filter head and rotate clockwise 1/4 turn.
4. Check for leaks. If leaks occur, repeat step 2 & 3. If leaks persist, discontinue use and call your supporting dealer.
5. Run the water to flush filter until water runs clear.

Coast Distributors provide a range of quick change water filter systems to enhance ice quality and extend the performance and life of ice machines. The filter systems feature a quick change sanitary design which is not only easy to install and use, but also protects against water contamination by eliminating handling of the filter media.
